

The diagram illustrates a mapping from a large set of all people to a smaller set of newly formed hair colors. On the left, a large light blue circle labeled 'Menge aller Menschen' contains ten small white circles representing individuals. On the right, a smaller light gray circle labeled 'Neu gebildete Menge der Haarfarben' contains five hair color labels: 'rot', 'blond', 'braun', 'schwarz', and 'grau'. Lines connect the individuals to the hair colors: one individual maps to 'rot', two to 'blond', two to 'braun', two to 'schwarz', and three to 'grau'.

Menge aller Menschen
